Reimagining Smartphone Charging Technology

The background is a deep blue underwater scene with sunlight filtering through the water from the top. In the center, there is a white line-art graphic. It features a smartphone-like shape with a camera dot at the top center. To the left of the phone is a stylized globe with curved lines representing continents. To the right and bottom of the phone are several small circles of varying sizes, representing bubbles. The text 'Repurpose Ocean-Bound Plastics' is written in white, bold, sans-serif font over the right side of the smartphone graphic.

**Repurpose
Ocean-Bound
Plastics**

Business Continuity Just Got an Upgrade

Extend OS upgrades to

~~3~~⁴ generations + 5 year SMR
